

Dear business partners and friends,

We proudly announce you the release of one of the most anticipated products we've ever made:

The DNA Leather Top Filters series.

Personalized design with 5 different diameters, 3 different shapes and 8 different colors! 24 unique air filters ! The biggest one-off release we've ever made and trust us, you will like it.

- Special Leather Top with synthetic leather on the top side of each filter, heat embossed with our minimal D logo.
- 8 different colors to match your seat, jacket, boots or your mentality maybe?
- As always with our extremely high filtering efficiency (2) at 98-99% complying with the ISO 5011 standards using our special 4 layers of DNA cotton.
- Perfect fitting for + - 1mm of the named diameter of the filter. Covering more than 95% of the throttle bodies available in the market!
- Rust free! All our clamps are made from marine grade stainless steel and also our wire-mesh is marine grade aluminum epoxy coated.
- Each filter is handcrafted and produced with passion in the details in our new production line for medium batches of air filters. Not a massive production line with no attention on the details.
- This DNA filter is designed as a High Flow Air Filter for: road & racing use.
