**Setting up the Kiwi 2 Bluetooth**

**Step One**
Plug Kiwi® 2 Bluetooth into OBD II port
The OBD II port is typically located under the steering column and should not require any tools to access.
Press and hold power button

**Step Two**
Go to Settings on your Android phone

**Step Three**
Tap on Wireless & networks

**Step Four**
Check the Bluetooth box and then tap Bluetooth settings, select Scan for Devices

**Step Five**
Tap Pair

**Step Six**
Launch your favorite app!

**Standby function**
The Kiwi® 2 Bluetooth has a <sleep> feature which allows for power savings when not in use. It will go into <sleep> mode 5 minutes after the user exits the Android app on their mobile device or a period of no data transmission.
The Kiwi® 2 Bluetooth can be awakened by a single press of the side button.
LED Indications

**PLX Devices logo:**
- Blink 2/second – no device connected
- Solid – App activity detected

**Link:**
- Off – no data transfer
- Blink (at any rate) – data being transferred/ requested

---

Troubleshooting:

**My Kiwi® 2 Bluetooth does not turn on:**

**Is the Kiwi® 2 Bluetooth plugged into the OBD II port of the vehicle?**
- Verify that the Kiwi® 2 Bluetooth is fully plugged into the OBD II port.

The fit should be snug, but force should not be necessary.

**Does the vehicle have the required pins populated for the Kiwi® 2 Bluetooth turn on?**
- The Kiwi® 2 Bluetooth requires pin 4, 5, and 16 to power on. Pin 16 is the power pin. Pins 4 and 5 are grounds.

**Tap the sleep switch.**

**I can’t see the Bluetooth:**

**Is the Kiwi® 2 Bluetooth powered?**
- Verify that you have 12v of power on your OBD II port using a digital multimeter on pins 16 and 5.

**Have you turned on your Bluetooth adapter?**
- Verify that you have Bluetooth turned on in your device.

**My Kiwi® 2 Bluetooth is paired but not connected:**
- Once pairing is successful, your phone will tell you that PLXKiwiBT-XXXX is paired, but not connected. To successfully connect to your vehicle, your app will need to establish a connection.

**My Kiwi® 2 Bluetooth does not work with my iPhone:**
- Kiwi® 2 Bluetooth is not compatible with iOS Devices. The Kiwi® 2 Wifi was designed for iOS Devices.

---

**iMFD Port**

**Only remove termination jumper if connecting IMFD Adapter**

The iMFD port is for adding additional aftermarket sensors not typically found in OBD II data like air/fuel ratio, EGT, vacuum/boost.

The iMFD Adapter is an additional part that connects directly to your Kiwi® 2 Bluetooth. Simply remove the termination jumper on the back of the Kiwi® 2 Bluetooth, connect the iMFD Adapter, and connect a serial data cable from any PLX Sensor Module to view this information on your Android phone.
